The double-cutaway G5622T-CB Electromatic® Center-Block Electric Guitar features That Great Gretsch Sound™ with the "center-block advantage." The interior solid spruce center block running the length of the guitar's 1 3/4"-deep thinline-style body makes for a lively "high gain-friendly" tone and delivers greater control over the kind of feedback players want. The three new dual-coil Super HiLo-Tron™ pickups are voiced to produce a clean, high-end sparkle with robust low-end, low-noise performance, along with versatile pickup switching.

Other premium features include five-ply maple body construction with a bound arched top and back, bound "cat's eye" sound holes and a bound maple neck. The G5622T-CB also has a 12.5"-radius rosewood fingerboard with 21 medium jumbo frets and Neo-Classic™ "thumbnail" inlays, three-way neck/bridge pickup switching with two-way auxiliary switching (middle pickup on/off), single-ply black pickguard with Gretsch logo, five "G-arrow" control knobs (volume for each pickup, master tone for bridge and middle pickups, master volume), anchored Adjusto-Matic™ bridge and flat-handle Bigsby®-licensed B70 vibrato, Grover® tuners and knurled strap retainer knobs. Available in Black, Rosa Red and Georgia Green gloss finishes.
