

CAUTION: This schematic diagram is a normal standard one.
The parts rating and/or schematic diagram will be changed without notice.

NOTES

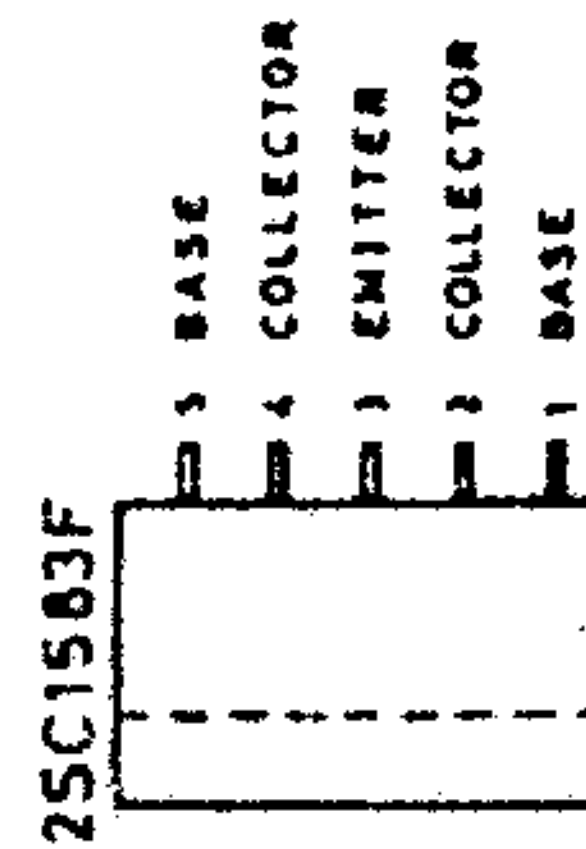

- △: CERAMIC capacitor. All ceramic capacitors are above 25V rating.
- : FILM capacitor. All film capacitors are above 50V rating.
- NP: NON POLAR capacitor.
- T: TANTALUM capacitor.
- And all capacitors are ELECTROLYTIC capacitors, unless otherwise marked.
- Unless otherwise indicated.
- Resistance in Ω, K=KΩ, M=MΩ Resistors. 1/4W ±5% rating.
- Capacitance in P=pF, μ=μF.
